Deer Lodge County

Located in southwestern Montana, Deer Lodge County is Montana's 20th most populous with 10,356 residents, according to the 1990 Census.

According to the *Montana Almanac*, by authors Andrea Merrill and Judy Jacobson, the county was established in 1865 and was one of the original nine territorial counties. At one time, it extended from the Beaverhead County line to the Canadian border.

The city of Anaconda was founded in 1883 by Marcus Daly, Montana's famous Copper King. Built after he died, Daly's Washoe Smelter was billed as the world's largest copper smelter. A golf course designed by golf legend Jack Nicklaus is built on the same site and includes relics from the old copper mine. The bunkers are filled with ebony-black sand, a by-product of the mine. Anaconda has preserved its historical district which includes the courthouse and Washoe Theater, listed in the National Register of Historic Places. The city of Anaconda and the county of Deer Lodge consolidated their governments in May 1977.

According to the U.S. Bureau of the Census, median income for Deer Lodge County households in 1989 was \$20,281. The county is 741.3 square miles in area; 737 square miles in land area and 4.3 in inland water area.

County residents experience the four distinct seasons. The *Montana Almanac* shows the average daily high in July from 1980 to 1989 was 82.2 degrees above and the average daily low in January 8.3 above. The average annual snowfall in January during that time period was 6.3 inches.

PLEASE NOTE: Because of time and budget constraints, we are only able to update our county flyers periodically. Individual tables are updated on a more frequent basis. You can call us if you'd like the most current information for a particular county. The Annual Averages for County Employment By Industry are updated annually, usually in June. The Top Employer are updated annually. Per Capita Income statewide is usually released late spring and county data around August each year. Population data for Montana is usually released in March and county data may be released at a different time. The Annual Average Labor Force information is benchmarked annually and numbers available before March. The other tables contain Census information and will be updated every 10 years. You can also look for more current information on our website listed on the front of this publication.

500 copies of this flyer were printed at an estimated cost of \$50.30.
